Portfolio Website: <https://mutaman.over.sd>

Profile

Full Stack Web Developer with 4+ years of experience in implementing and maintaining web applications using PHP, Node JS. Skilled in all facets of development, from proficiently designing and coding to deploying API integrations, website features, and performance enhancements. Committed to delivering innovative solutions and achieving client satisfaction.

Skills

Programming Languages

PHP – JavaScript -
HTML/HTML5 -
CSS/CSS3 - Python -
SASS/SCSS - C++.

SQL Databases

SQL Server - MySQL -
SQLite.

Development Tools

Vs code - Postman -
Xampp - Wampp -
Laragon - Adobe
Photoshop CS5 - Figma
- Adobe Illustrator - XD
Adobe - PowerShell -
bash – Zeplin
- PHP storm.

Libraries and Frameworks:

Laravel, TALL stack
(Tailwind Alpine
Laravel Livewire) –
Vue JS– React JS -
jQuery - Bootstrap -
Ajax.

NoSQL Databases

MongoDB - Firebase
Realtime DB

Operating System

Linux(ubuntu) -
Windows - MacOS.

Microservices

Cloud Services -
Amazon Web Services
(AWS) - Socket
Programming.

Architecture Pattern

MVC - MVVM - MVP.

Other Skills

WordPress
Development- Agile
(Jira)
- CI/CD - SOLID Principle
- Clear understanding of
OOP - Debugging.

Web Services

RESTful API –
GraphQL - SOAP -
JSON.

Version Control System

Team Foundation
Server (TFS) (Azure
DevOps) - Git - GitHub -
Gitlab.

Graphic Design

Familiar with Adobe
Creative Suite –
Adobe Photoshop,
Adobe Illustrator.

Professional Experience

Software Developer, *Richman General Trading L.L.C.*

- Developed and maintained **RESTful APIs** using **Laravel** to support seamless data exchange between front-end and back-end systems, ensuring scalability and performance.
- Built dynamic and responsive user interfaces using **Vue.js** and **React**, enhancing user experience and interactivity across web applications.
- Integrated REST APIs with **Vue.js** and **React** front-end applications, enabling real-time data updates and smooth functionality.
- Designed and implemented **custom API endpoints** for E-commerce platforms, including features like product management, order tracking, and user authentication.
- Optimized API performance by implementing **caching mechanisms** and reducing latency, resulting in faster response times.
- Utilized **Agile methodologies** and tools like **Jira** to manage tasks, track progress.

Aug 2024 – present
Dubai, UAE

Nov 2023 – Jul 2024
Sharjah, UAE

Freelancer Full Stack Developer, Aldana Computers Technology

- Spearheaded **E-commerce** applications development using **Laravel**, Tailwind CSS, and Livewire Alpine JS.
- Engineered **RESTful** web services for real-time data sharing, enhancing information flow efficiency.
- Implemented advanced features, including a dynamic cart system, category filters, and an intelligent search, improving user experience.
- Orchestrated seamless integration of **payment gateways** (PayPal, Strip), streamlining checkout and enhancing security.
- Executed comprehensive security measures, ensuring integrity and confidentiality of sensitive information.

Jun 2022 – Oct 2023
Khartoum, Sudan

Rida Group Young Talent Development Program Participant, Rida Group, Sudan.

- Played a key role in both long-term and short-term mining planning processes, integrating geological data and safety considerations.
- Collaborated with cross-functional teams to translate project requirements into technically sound solutions, ensuring seamless integration of design and functionality.
- Played a key role in **project planning**, providing technical expertise that contributed to successful outcomes.
- Applied effective troubleshooting methodologies, swiftly resolving problems and minimizing downtime.
- Compiled **technical reports** documenting various aspects of mining operations, including geological data, mine plans, and equipment specifications.

Web Developer – Graphic Designer, Economining Consultancy, Sudan.

- Collaborated with database administrators to optimize structures for enhanced data storage efficiency and quicker retrieval times.
- Designed robust **APIs** for seamless front-end functionality and integration with external systems, improving system interoperability.
- Implemented security best practices, fortifying the application against threats and ensuring user data safety.
- Constructed RESTful JSON web services, contributing to a scalable and flexible application architecture.
- **Adobe Illustrator** and **Adobe Photoshop** daily graphic design tasks. I can create visually appealing graphics and user interface elements for the company's software products, enhancing their overall design and usability

Apr 2020–May 2022
Khartoum, Sudan

Education

Software Engineering, ALX Africa, Holberton School of Computer Science, Kenya Jul/2023 – Aug/2024

Mining Engineering, Bachelor of Science, University of Khartoum 2015 – 2021 Khartoum, Sudan

Languages

- **Arabic** (Native Speaker)
- **English** (Professional Working Proficiency)

Certificates and Licenses

- **Member of Sudanese Engineering Council**
- **Udacity Full-Stack Web Developer Certificate**
- **UAE Driving License**
